

A photograph of a concrete memorial bench. The bench is composed of several thick, rectangular concrete slabs. The top slab features a recessed plaque with Spanish text. Below the main slab, a drainage channel is visible, containing two parallel concrete beams supported by a bed of small, smooth stones. The bench is situated outdoors, with a white wall and green foliage in the background. The lighting suggests a sunny day with shadows cast across the wall.

A la memoria de los luchadores y líderes militantes del MAPU, de los hijos-hermanos perseguidos y asesinados por la dictadura,
y a todos aquellos que vivieron luchando y luchando por una patria justa y solidaria.
Comité Memoria MAPU - Puntarenas 2010
